## 1340 | Top Grain Goatskin MIG Glove With OilShield™ Protection and ANSI A7 Cut Resistance

### SPECIFICATION SHEET

#### Description

Tillman's 1340 premium Goatskin MIG gloves have a Para Aramid lining for ANSI A7 Cut Resistance and are protected with OilShield, a molecular additive that repels oil grease and liquids from penetrating leather. Tillman's OilShield coating causes oil and liquids to bead off the leather keeping hands protected, clean and dry.

Tillman's OilShield is infused into the leather during the tanning process so the leather is thoroughly treated. OilShielded will not wash off. As gloves and leather wear, OilShielded is still protecting.

#### Features

- Premium top grain Goatskin
- OilShield oil and liquid-resistant treatment is added in the tanning process for deep protection
- Para-aramid on the palm, back of hand, fingers and cuff
